

The 2012 Beijing Minithlon is an event for the whole family to enjoy. Apart from the new Company Challenge, the family relay is another new addition on the Minithlon's event programme. Never before was triathlon so accessible!

The idea of the family relay is very simple: each family selects a swimmer, a biker and a runner. For example, mother swims, father bikes and child runs. And of course, there will be beautiful family photograph for the memory as well.

Children under the age of 12 can also participate in a special children's Minithlon. And when after the competition everyone has showered and dressed up, there is the BBQ in the Radisson Blu's Royal Garden to look forward to!

The Minithlon caters for everybody, young and old, fit and unfit, and aims to give everybody a rich afternoon and evening of fun and enjoyment.

# Minithlon for the whole family
